We do not condone clones. Personally, I believe they are more trouble than they are worth, but there are members who have inadvertently purchased them and should not be punished for it.

This is a living document. If you have any information on other clones or corrections to the list, please post it on this thread and we will update the list.

Pansat 2300:

Fortec Lifetime
Astrovox 2600

Pansat 2500:
